

Architecture @ De Lijn

Context matters

Watch out

Find a balance

Consider

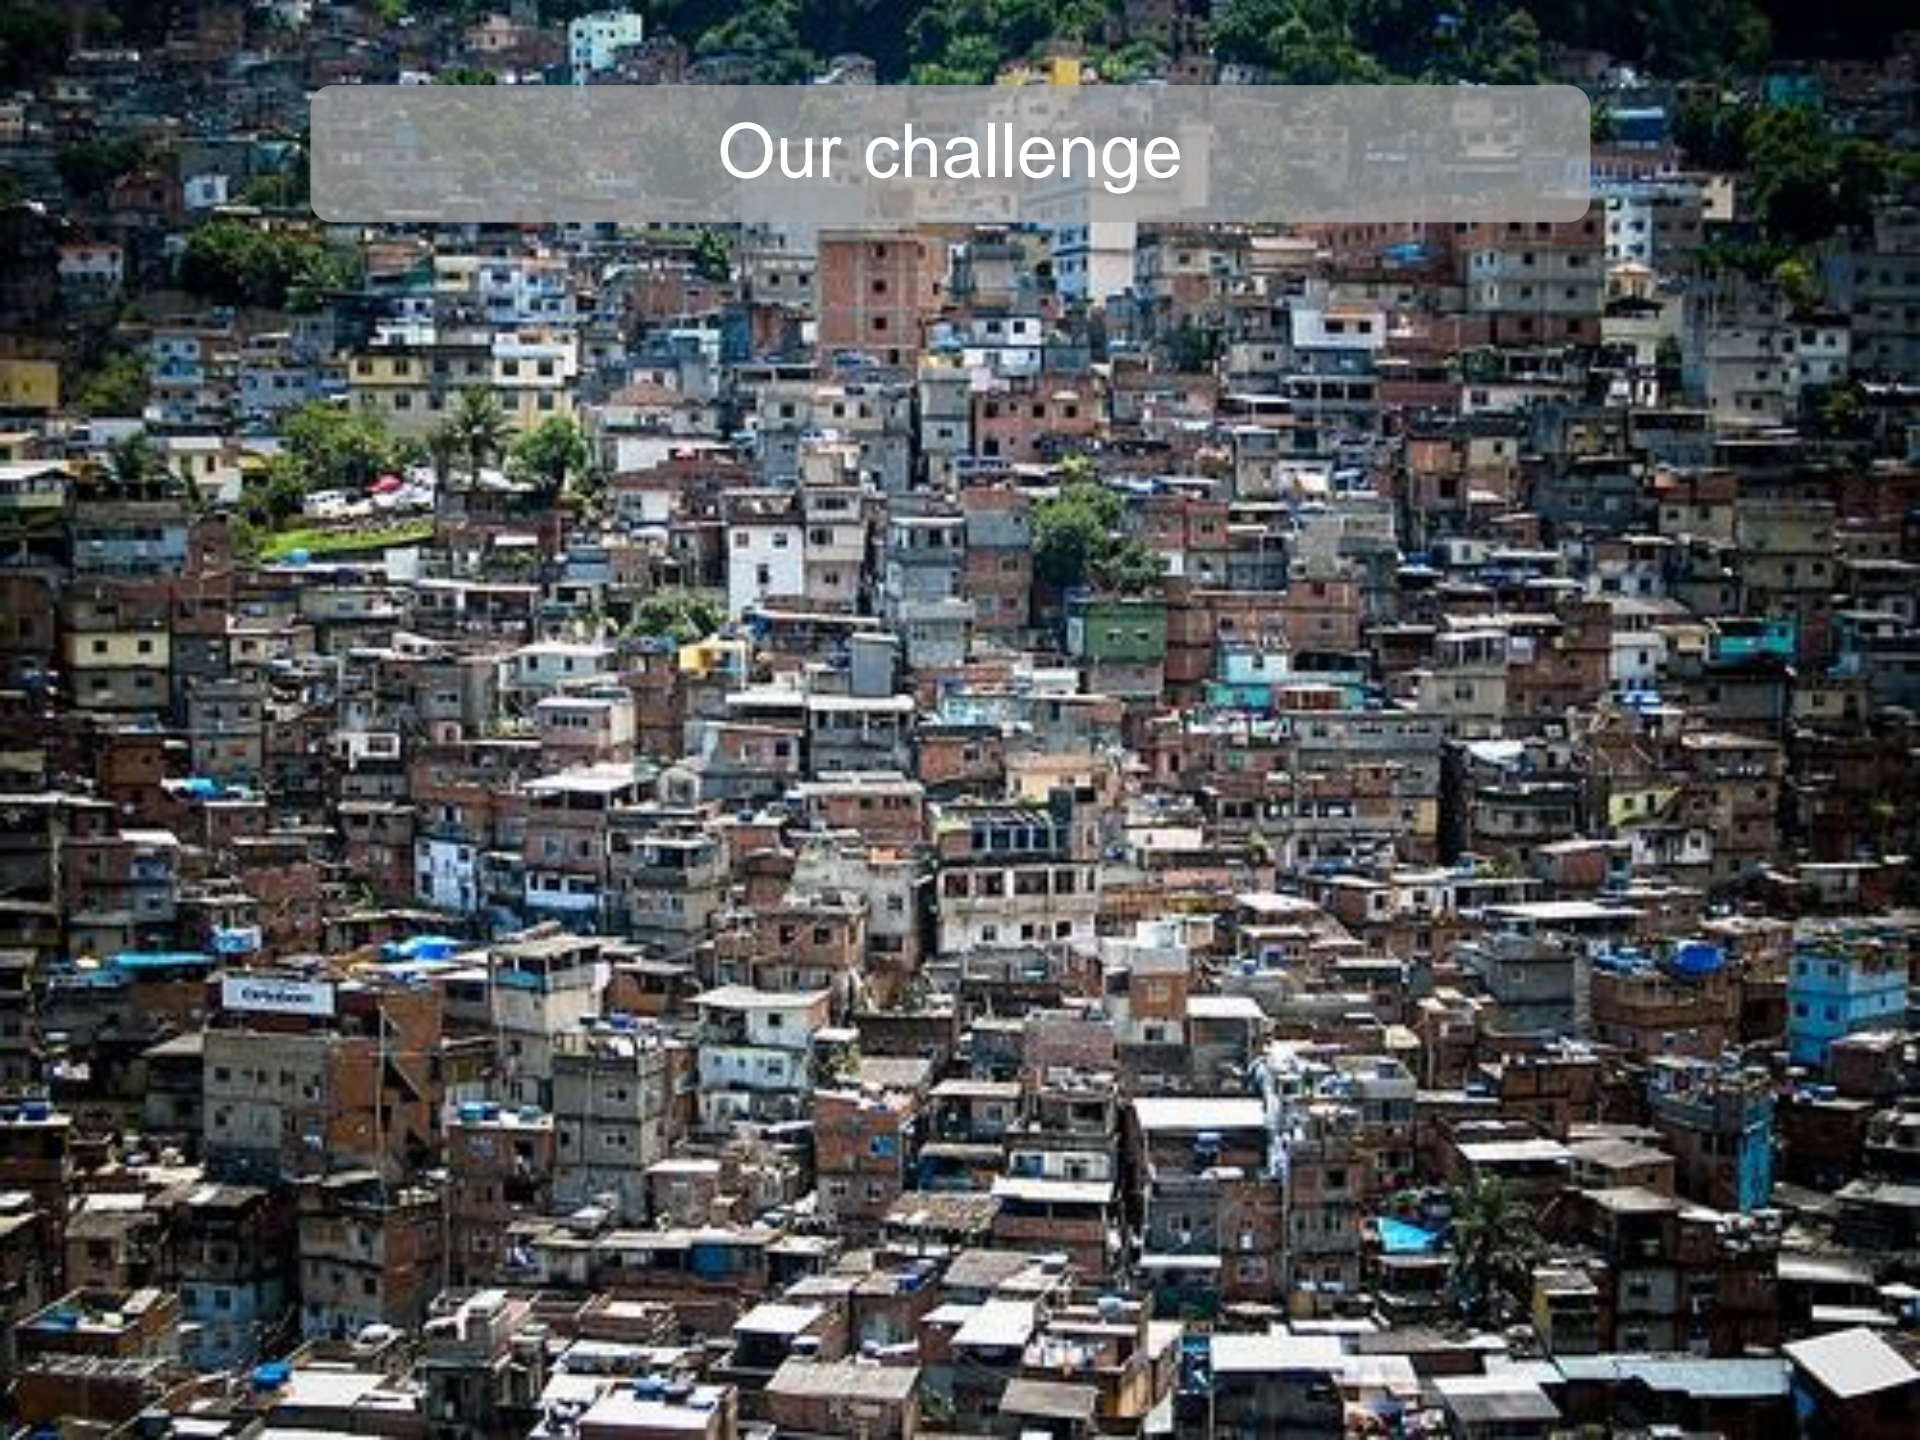

Context matters

Context matters

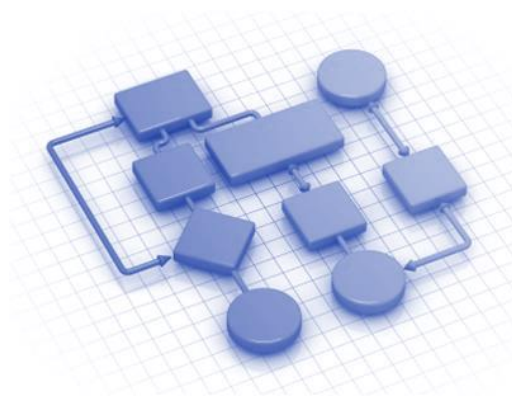

- Architecture @ De Lijn
 - Part of IT department
 - Team: 10 architects + 9 business analysts
 - Solution and enterprise architecture

Our challenge

Watch out

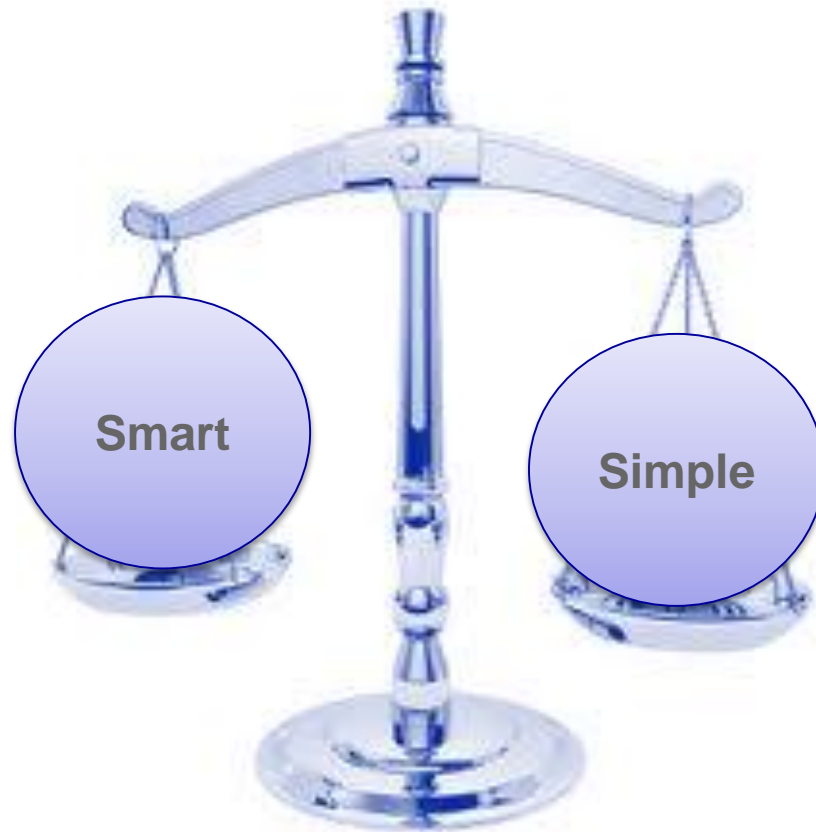

EA status symbols

	Why	How	What	Who	Where	When
Contextual	Goal List	Process List	Material List	Organizations Unit & Role List	Geographical Locations List	Event List
Conceptual	Goal Relationship Model	Process Model	Entity Relationship Model	Organizations Unit & Role Model	Locations Model	Event Model
Logical	Rules Diagram	Process Diagram	Data Model Diagram	Role relationship Diagram	Locations Diagram	Event Diagram
Physical	Rules Specification	Process Function Specification	Data Entity Specification	Role Specification	Location Specification	Event Specification
Detailed	Rules Details	Process Details	Data Details	Role Details	Location details	Event Details

- The temptation of quick wins
- Deliverable vs proces
- Quick win vs real benefits

Find a balance

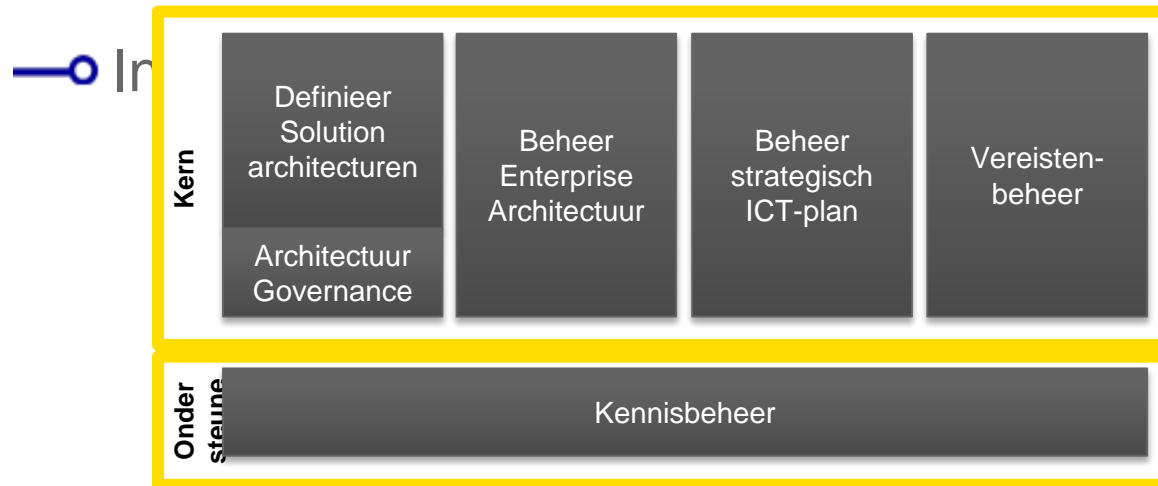

Find a balance

Consider

- Tailoring the frameworks and methods = simplify!
- Standardising the architecture capability
- Based on stakeholder expectations

Consider

“There is nothing wrong with being **humble** and only doing things you **understand.**”
